**4 West 43<sup>rd</sup> Street, NY – Studio 415**

New York, NY

July 7, 2015

Saphira & Ventura Galleries of New York, Paris & Palm Beach is proud to present a multimedia event that explores the beauty and challenges of creativity. Enjoy being part of this exclusive show where eclectic cultural trends meet fashion, accessories and fine art.

We encourage retailers, wholesalers and collectors of fine goods from all over the world to join us. Artists represented will be offering unique paintings, photography, jewelry, furniture and fashion all handcrafted and eco-friendly. This show will exude freedom of expression where an array of organic materials such as metal, wire, wood, precious and semi-precious stone all come together and permeate the feminine aspects of our cosmic world.

The exhibition will be filled with eclectic art works, fashion from creative artists and unique designers. Our opening reception on Thursday, July 9, will provide an opportunity to meet and mingle with some of New York's most creative minds while providing an opportunity to purchase unique pieces not available anywhere else. Refresh your own client offerings with trending artwork, jewelry, shoes, furniture and accessories.

Participating artists and designers are a true mix of nationalities and ethnic influences. Saphira & Ventura Gallery continues to represent and exhibit emerging and established contemporary talent from around the world. The gallery's innovative internationalism is a welcome platform for our artists, designers, curators, retailers, architects, interior designs and collectors.

*This exhibition has been curated by Alcinda Saphira.*
